

Wonen-woningen

In het Westerpark

Datum: 23-01-2019

Opdrachtgever: Gemeente Nijmegen

Gemaakt door: Chahrazad, Selin, Daphne, Fleur, Karlijn en Sterre

Inhoudsopgave

A green silhouette illustration of a sustainable landscape. It features three wind turbines of varying sizes, a house with a chimney emitting smoke, several trees of different shapes, and a few birds flying in the sky. The entire scene is set against a white background with a green ground line.

- ✓ Vuilnisbak
- ✓ Stadspomp
- ✓ Recyclen
- ✓ Energie

- ✓ Gras
- ✓ Verlichting
- ✓ Restaurant
- ✓ Hergebruik
- ✓ Ondernemingscafé

Alternatieve maatregelen of oplossingen

A green-toned illustration of a sustainable landscape. It features several wind turbines of varying sizes, stylized trees with floral patterns, and a house with a chimney and a window. The background is white, and the foreground is a solid green shape representing the ground.

🏠 Wat zijn onze oplossingen/maatregelen?

- Dubbele beglazing
- Groene energie
- Zuinige ketels/warmte pomp
- Zonnepanelen
- Subsidie
- Tips

Conclusie

A green silhouette illustration of a sustainable landscape. It features three wind turbines of varying sizes, several trees with different foliage patterns, and a house with a chimney emitting smoke. The scene is set against a white background with a green ground line.

🏠 Wat zijn onze eindadviezen?

- Vuilnisbak
- Zonnepanelen/groene energie
- Restaurant

bronnen

A green silhouette illustration of a sustainable landscape. It features several wind turbines of varying sizes, a house with a chimney emitting smoke, and various trees, including a large one on the left and smaller ones on the right. The scene is set on a rolling green hill.
